**Subject:** Satin Chrome Finish

**Bulletin #30**

The 3000SC keypad cosmetic look and finish has been updated to present a more uniform satin-chrome aesthetic across the entire LA GARD product line. As a result of this change there is a distinct difference in both the texture and gloss from past shipments of these keypads. No functional or dimensional changes have been made, just the cosmetic look and feel. dormakaba will ensure we do not combine the two different aesthetic finishes in a single order unless specifically requested and/or authorized by the customer. Please contact us if you have any questions about this change.

We are continually trying to improve the consistency and quality of our products and we are grateful for your loyalty and continued trust in the LA GARD brand.
